

AMS 2018 Elementary Summer Recreation Program

WEEK 1: June 4-8 Mythbusters

Join us as we put misconceptions to the test with science.

WEEK 2: June 11-15 Fear Factor

Test your bravery. Investigate the things that make us say, "EWWW!"

WEEK 3: June 18-22 The AMSzing Race

Travel the globe with us. Learn about different cultures through activities and crafts. Fun challenges each day.

WEEK 4: June 25-29 Animal Planet

We will be exploring a few different biomes and the amazing animal life found within.

WEEK 5: July 2-6 Let's Recreate

It's a holiday week. Time for us to bring our bikes to school, play in the water, go for a hike, and fly kites.

WEEK 6: July 9-13 GeoDetectives

Dirt, Rocks, Fossils and more. What can we discover with geology?

WEEK 7: July 16-20 Engineering

Let's put our minds to work at planning, designing, and building.

WEEK 8: July 23-27 AMS in Wonderland

Have you ever wanted to be a Mad Hatter, smile like a Cheshire, or play croquet with flamingos and hedgehogs? It's time to brush up on our chess playing and get ready to save your heads!

WEEK 9: July 30- Aug. 3 Project Green

Kid powered conservation. How can you make a difference? Let's explore some problems and find some simple solutions.

WEEK 10: Aug. 6-10 Survival Week

Do you know how to safely explore the great outdoors? We are going to put our skills to some mini challenges.

Children entering Kindergarten through 6th grade are invited to join us for a plethora of summer activities, including science experiments, arts and crafts, games, building projects, outdoor adventures, field trips, and of course, plenty of time spent playing outside in the sunshine! We will be dining alfresco on days the weather permits, so make sure to bring in a sack lunch!
